How to use the USSVI Website

Reconnecting with your Shipmates

By Patrick Householder, NJVC

Are you interested in locating past shipmates you served with on the “Ustafish.” Here is an easy way to see if they belong to USSVI.

On the internet, go to the www.ussvi.org homepage.

First, click the Member Login button (top left, first button). Login or Register yourself.
You can click on any member’s name but to see the address information you will have to be logged in as a USSVI member first as explained above. (This is to protect the privacy of the member’s information.)

You can also look up any other USSVI member (not necessarily from one of your boats) by this process by completing the various other sections of the “Find” form.
